Cross Over Tool Boxes

DANGER!

Do not use this toolbox for the storage or transportation of flammables, explosives, hazardous waste or materials such as gasoline, solvents, gun powder, dynamite, propane tanks, acetylene tanks or cutting torches. This toolbox is only intended and safe for use in storing and transporting small tools and equipment and/or other small materials.

Step 1: Place foam tape (provided) under each end of the box that sits on the bed rail.

Step 2: Place tool box in the front of the truck bed and center it from side to side, be sure to have window clearance when opening the lid.

Step 3: Open the lid, there are two pre-punched slots on each inside end of each side. Push threaded end of the "J" hook (provided) up from the bottom and into the slot. Be sure to hook the bent end of the hook under the bed rail pinch weld. Secure using the flat washer, lock washer, and nut provided.

Step 4: Repeat in the remaining three slots.
